Re: Approval - City of Chicago Background Soil Data Evaluation

Dear Mr. Prasad:

The United States Environmental Protection Agency (EPA) reviewed the latest revisions to the above subject report, dated December 3, 2015. EPA's review indicated our November 24, 2015 comments have been satisfactorily addressed, based on WEC's submittals (electronically) on December 4, 2015. Consequently, EPA is approving the subject report (Revision 0, December 2015). This report shall be incorporated as part of the RI report for the Willow-Hawthorne site when it is submitted to EPA for review. Information from the subject report shall also be used to support remaining MPG sites in the multi-site MGP program.

Your cooperation on this matter is appreciated. If you have any questions or request a meeting to discuss the matter, you can reach me (312) 886-6195.

Sincerely,

A handwritten signature in blue ink, reading "R. del Rosario", is positioned below the word "Sincerely,".

Ross del Rosario
Remedial Project Manager
